## BEGINNING OF THE END

### Haywood Murder Case Drawing to a Close.

### DEFENDANT WILL TESTIFY

Man Accused of Planning Murder of Former Governor Steunenberg of Idaho Will Take the Witness Stand in His Own Behalf.

Boise, Ida., July 6.—A beginning of the end of the Haywood trial has been reached. Counsel for the defense announced that with the exception of three or four witnesses their case in direct is before the jury. Charles H. Moyer, the accused president of the Western Federation of Miners, will be called as witness on Monday next. He will be followed by William D. Haywood, the defendant.

Judge Fremont Wood has asked counsel on both sides to submit their requests for instructions to the jury. He has notified counsel that he will consider these requests and will agree with counsel as to what his instructions shall be in order that the arguments on both sides may be limited to what the jury shall be allowed to consider as evidence.

In adjourning court until next Monday at 10 o'clock, Judge Wood said he hoped the interval would be utilized by counsel in preparations that would prevent further delay and bring the case to as speedy a close as possible. It is now expected that the rebuttal evidence in behalf of the state will commence on Wednesday and possibly on Tuesday, much depending on the extent of the cross-examination of Haywood. Counsel for the defense and for the prosecution after the adjournment were willing to admit the possibility of a verdict or disagreement in two weeks.

Some uneasiness on the part of the jury as a result of their long confinement developed. Just before the adjournment of court, Juror S. F. Russell, who occupied the twelfth chair, turned to the bench and asked if the jury would be allowed to exercise during the two days' adjournment.

He complained that some members of the jury were disinclined to take walks and that for this reason the other jurors were unable to take exercise to which they were accustomed and without which there was danger of sickness.

O. V. Hebrorn, the sixth jurymen, addressed the judge in support of this statement and asked that the jurors be allowed to take exercise according to their inclinations.

Judge Wood and counsel for both sides agreed to arrange anything within the law for the improvement of conditions.

### Bailiffs Too Strict.

A. P. Burns complained that the bailiffs in charge of the jury were too strict and that a jurymen who exceeded some trivial rule was summarily called to order. Juror J. A. Robertson, the good humored Scotchman occupying the ninth chair, defended the bailiffs and said laughingly: "Well, I don't know about being too strict. I know I never had a better time in my life."

The announcement was received with roars of merriment and Judge Wood, who seldom joins in any demonstrations, leaned back in his chair and laughed heartily.

The five witnesses on the stand Friday added support to those who have preceded them. They were called to testify concerning conditions existing in Colorado during the disturbances at Cripple Creek and to show that there was no reason to call out the militia. Orchard was further discredited by Owen Barnes, a miner who lived near the Independence

mine and who Orchard said assisted him in the manufacture of bombs. Barnes said he knew Orchard, Adams and Easterly and others, but flatly denied that he ever planned or discussed any criminal expedition with Orchard.

J. Wolff, who swore that he was financial clerk for George Pettibone for many years and closed up Pettibone's business after he was arrested, proved one of the strong witnesses of the defense. In his statement on the stand Orchard swore that when he was in San Francisco on the Bradley killing expedition he sent to Pettibone for money which he received in a registered letter containing five twenty dollar bills. He said the letter was signed "J. Wolff" and the state intimated that was a name under which Pettibone passed.

The witness swore that he had sent Orchard no money, but that he had sent a registered letter to Orchard as "Jack Dempsey," addressed to him in San Francisco. This letter Wolff swore contained a Masonic charm and a union card that Orchard had left with Pettibone and for which it has been testified he wrote after his arrival in San Francisco.

The examination of William D. Haywood early next week is looked forward to as one of the big features of the case.

### Business Section Burned.

Malone, N. Y., July 6.—The business portion of North Lawrence was wiped out by a fire that started in the attic of Dunn's hotel and fanned by a fresh west wind burned itself out after destroying fifteen business houses, eight residences, the postoffice, Dunn's and the Commercial hotels, the telephone exchange and several small buildings. Origin of fire unknown. Loss, \$75,000.

### TALK OF WAR WITH JAPAN

Rear Admiral Evans Declares That It Is Silly.

New York, July 6.—Rear Admiral Robley D. Evans, commander-in-chief of the Atlantic fleet and who will be expected to be in command when the battleships round Cape Horn, said at the Brooklyn navyyard:

"There have been no orders to rush repairs at the Brooklyn or other navyyards. There is such a shortage of docks we are always pushed to accomplish our work, but there is no especial rush.

"I have received no orders for a cruise. What may be in contemplation I, of course, do not know. It is my business to do only what the government may require."

Admiral Evans attaches no more significance to the plans for a practice cruise that will take his fleet over 14,000 miles than have other officers. It is absurd, he added, to construe the appearance of this formidable fighting force on our West coast as a demonstration to impress the friendly government of Japan.

"It is silly to talk of war with Japan," he said. "Because some tough wrecked a Japanese restaurant in San Francisco is no more reason for war than there would be for one with China if hoodlums should stone a Chinese laundry."

### The Left Wing.

"Is there any portion of the fowl you prefer, major?" asked the hostess blandly.

"The left wing, if you please."

"The left wing?"

"Yes," retorted the major, gazing dubiously at the platter. "I believe it is always good military tactics to bring the left wing of a veteran corps into action."—London Tit-Bits.

### Fancy Rice.

"I want some rice," said the haughty lady. "You have it for sale, have you not?"

"Sure, ma'am," replied the grocer.

"Six cents a pound or two pounds for?"

"Oh, I must have the most expensive kind. It's for a very fashionable wedding."—Philadelphia Press.

## TO APPEAR IN COURT

John D. and William Rockefeller in Chicago.

### CONFER WITH ATTORNEYS

Oil Magnates and Their Lawyers Talk Over What Court Desires to Know of the Head of the Standard Oil Company.

Chicago, July 6.—John D. Rockefeller, president of the Standard Oil company, and his brother William, one of the directors of that corporation, are in Chicago ready to appear in the United States district court before Judge K. M. Landis and be questioned regarding the finances of the corporation.

The Rockefellers reached Chicago at 4 o'clock Friday afternoon over the Michigan Central railroad. Their arrival was known only to their attorneys and a few relatives for several hours. No one except those who knew what railroad they were traveling on paid any attention to the arrival of the Michigan Central trains and the two brothers left the station without being recognized. An automobile was in waiting and no time was lost in getting away from the depot. The oil magnates were driven to the office of Alfred D. Eddy, one of the Standard Oil attorneys. Waiting with Mr. Eddy were the other attorneys who will represent the company in court, John S. Miller and Moritz Rosenthal.

The men remained in conference two hours. Then they were taken to the home of Harold McCormick, 88 Bellevue Place. Mr. McCormick is a son-in-law of John D. Rockefeller.

When Mr. Miller was asked what was the purpose of the conference in Mr. Eddy's office, his reply was:

"We talked on the subject of what the court desired to know of him and the reasons for his being summoned to appear before Judge Landis. He was shown the questions the court wanted answered and then we talked over legal procedure of the case."

"Mr. Rockefeller will not be able to give the court much detailed information. He will, of course, answer the questions addressed to him to the best of his ability, but he has not attended a meeting of the board of directors for eight years and cannot know much more than a general outline of the company's work."

Government officials realize that they are put in a peculiar position by the appearance of Mr. Rockefeller in court. In order to prevent any disturbance by cranks deputy marshals will be stationed throughout the courtroom. At the least attempt of a lookeron to start trouble he will be ejected. Orders were issued from the United States marshal's office that no one would be admitted to the courtroom unless he could show credentials.

At 10 o'clock Friday night the lights were dimmed in the McCormick mansion and it was stated that Mr. Rockefeller had retired.

### House Guarded by Detectives.

Fully a dozen detectives surrounded the house and no one was allowed near the place without giving a detailed account of his business.

The following is a complete list of the witnesses who must be in court or lay themselves liable to charges of contempt:

John D. Rockefeller, president of the Standard Oil company.

John D. Archbold, vice president of the Standard Oil company of New Jersey.

G. H. Pratt, secretary of the same company.

William M. Howe, assistant treasurer of the company.

F. Q. Barstow, assistant treasurer of the company.

Charles T. White, assistant secretary of the company.

J. A. Moffatt, president of the Standard Oil company of Indiana, with offices in New York.

W. P. Cowan, vice president of the same company.

G. W. Stahl, secretary and treasurer of the same company.

H. E. Felton, president of the Union Tank Line company, with offices in New York.

William M. Hutchinson, secretary and treasurer of the Union Tank Line company.

Fred A. Wann, former general freight agent of the Chicago and Alton railway.

It is from these witnesses that Judge Landis hopes to obtain the information that will guide him in fixing the amount of fines to be imposed upon the Indiana corporation, recently found guilty of accepting concessions from the Chicago and Alton railway on shipments of oil from Whiting, Ind., to East St. Louis and St. Louis, Mo.

The maximum fine that could be imposed is \$23,240,000.

What sort of truths do the majority rally round? Truths that are decrepit with age. When a truth is so old as that, it's in a fair way to become a lie.

## STORY OF ALLEGED FRAUD

Strange Tale Unfolded in a London Police Court.

London, July 6.—A strange story of alleged fraud involving large sums was related in the West London police court. Mrs. Josephine Leslie, whose friends were said to be worth millions, was arrested Thursday at Newmarket where she had been staying at the best hotel. Mrs. Leslie was taken into custody while driving in a motor car, charged with defrauding members of well known families by false pretenses and was arraigned Friday afternoon.

Miss Annie Blount, the plaintiff, is a member of an influential Dublin family. Her counsel said that Miss Blount met Mrs. Leslie at a friend's house. Mrs. Leslie, Miss Blount added, represented that she was a friend of J. Pierpont Morgan and produced a letter purporting to have been written by Mr. Morgan advising her to invest in one of his syndicates and promising fabulous profits. Miss Blount later was a guest of Mrs. Leslie at a leading London hotel and she says ultimately entrusted the latter with \$42,500 to invest in the alleged Morgan syndicate. Mrs. Leslie in return, it is alleged, gave Miss Blount post dated checks for \$125,000 and \$100,000, which were supposed to represent the profits that would accrue to Miss Blount. When the first check was presented, it was returned marked "account closed." Counsel added that other similar charges were pending against the defendant.

The detective inspector in charge of the case says the prisoner's friends possess "millions of money." She was remanded.

### FIRE ON A STEAMER.

Cargo of the Monterey Damaged by Smoke and Water.

New York, July 6.—While the Ward line steamer Monterey, Captain Smith, which arrived from Vera Cruz, Progresso and Havana, was being inspected by the health officer at quarantine, dense volumes of smoke suddenly poured from the fore hold, where were stored 300 bales of hemp and a quantity of sugar and wood.

Captain Smith summoned the crew to quarters. The fore hatches were battened down and within ten minutes four streams of water were pouring in to the hold.

Meanwhile the smoke was so dense that it was impossible to get into the chain locker to weigh anchor and the steamer was headed for the mud flats off Clifton landing, where she was beached. The captain did not summon assistance but relied on the steamer's fire-fighting apparatus, which proved sufficient. The fire was discovered at 7 o'clock and was under control two hours later.

The Monterey is resting easily, her fore hatch flooded. Part of the cargo has been damaged by fire and water.

The steamer had on board 120 passengers, 76 in the saloon, 32 second cabin and 12 steerage. Among these there was considerable excitement for a time but nothing approaching a panic. Soon after the steamer grounded all but thirteen of the passengers were taken off by tugs. Among those electing to remain aboard were P. Le Falve and Dr. B. von Humbrecht, respectively French and German ministers to Cuba.

### HAVE IGNORED NEW LAW

Express Companies Doing Business in Nebraska Enjoined.

Lincoln, Neb., July 6.—Attorney General Thompson in the supreme court enjoined the five express companies doing business in the state from seeking to evade the provisions of the law reducing express rates 25 per cent. The new law went into effect Friday. Thus far all of the companies have ignored it in that they have filed no schedule with the state railway commission indicating compliance with the enactment. The companies are subject to penalties at the discretion of the commission if they charge the old rates.

### MACLEAN HUMILIATED.

Commander of Sultan's Bodyguard Forced to Ride a Mule.

Tangier, July 6.—The British legation here has no news of Caid General MacLean, the commander of the sultan's bodyguard, and is making representations direct to the authorities at Fez. When General MacLean was captured Raisuli ordered him to dismount from his horse and mount a mule in order to show his inferior station and also directed him to remove his turban, declaring that such a headdress was reserved for Muslims.

### Strike Declared Off.

New York, July 6.—The strike of the American Ice company's drivers has been formally declared off. The action followed a final refusal of President Oeler to treat with strikers. Oeler, however, said that he would be glad to take back the men and to adjust any grievances presented by active employees.

### SHOOTS A WOMAN.

Iowa Man Then Commits Suicide to Escape Capture.

Sioux City, Ia., July 6.—Nicholas Deldrich, a laborer, shot and seriously wounded Mrs. Chris Johannsen, a widow who had refused to marry him. Deldrich fled, but was pursued by a policeman. Seeing he was about to be captured he shot himself twice in the head and leaped into the river. Mrs. Johannsen will recover. Deldrich's body has not been recovered.

### STRUCK BY LIGHTNING.

Brakeman Undergoes Terrible Experience and Yet May Survive.

Crown Point, Ind., July 6.—While switching cars on the Panhandle railroad Brakeman Neff was struck by lightning. Although a shoe was torn from his foot, his trousers were torn to shreds, a number of keys and some money were melted in his pocket and his body was burned from his neck to the end of his toes, he may survive.

### Story of Duel Untrue.

Jackson, Mich., July 6.—A story sent out from this city to a number of papers stating that Senator Tillman while in this city challenged Senator Dolliver to a duel is regarded here as a pure fabrication.

### Earthquake Shock Recorded.

Florence, Italy, July 6.—A severe earthquake shock was recorded at the university here Friday afternoon from 4 o'clock until 5:50. The distance is estimated at 5,775 miles.

### Cosmopolitan Dinners.

"You can pay your money in New York and get any sort of dinner you like and of every possible nationality," declared the man about town. "You can get an Italian dinner with spaghetti, a French dinner with frogs' legs, an Irish dinner with some sort of stew, a Hungarian dinner with goulash, a Russian dinner with caviare, a Spanish dinner with frijoles and a southern dinner with corn pone."—New York Press.

### Accounts Squared.

Hicks—I owe you an apology. The fact is, it was raining, and I saw your umbrella, and, supposing you had gone home for good, I took it.

Wicks—Don't mention it. I owe you an apology. You left your new hat, you know, and wore your old one. As I had no umbrella and as I didn't want to wet my hat, I put on yours. Hope you don't mind.—Pearson's Weekly.

### The Dust.

They were celebrating their engagement by dining at a swell cafe.

"Do you believe," she queried as the conversation lagged, "that man is really made of dust?"

"Well," he rejoined, glancing at the dinner check, "he wouldn't be able to travel far in your company if he wasn't."—Chicago News.

### Two Phases.

"I detest that Mrs. Jones. She always tells what all her clothes cost."

"Well, I detest Mrs. Brown. She never will tell what she pays for anything."—Detroit Free Press.

## FLOWERS FOR TOMB IN SEA.

Beautiful Memorial to Chicago Woman Lowered From Liner's Side.

One of the most beautiful memorial services ever held on an ocean liner was reported by the offices of the North German Lloyd steamer Koenigin Luise, which arrived at New York recently from Naples, says the New York Times. On the vessel's last voyage from Europe Mrs. Chalmers Prentice, the wife of Dr. Prentice of Chicago, a cabin passenger, died.

It was decided to bury the body at sea in spite of the protest of a young daughter who was traveling with her mother. The officers alleged that the representative on board of the Italian government would not permit the body to be brought to port.

When the Koenigin Luise sailed from this side Captain Morgenstein took out a magnificent box of flowers. The course of the vessel was closely watched, and when the liner passed near the spot where a few weeks before the body of Mrs. Prentice had been cast into the sea the flowers were brought on deck. The ship's passengers crowded to the rail with uncovered heads, and the box was silently lowered over the side and sent adrift over the unmarked grave in the ocean.

## To Save Miners' Lives.

Reported successful experiments have been conducted in a Yorkshire mine in England with two kinds of artificial breathing apparatus to enable rescuers to work in irrespirable air after an explosion, says Harper's Weekly. A portion of the mine had been provided with the conditions existing after an explosion. Four men were equipped with the contrivances and remained in the place several hours engaged in such work as would be necessary after an explosion. It is believed that these devices would enable a corps of trained men to enter a mine filled with foul air to restore the ventilation and to save many lives.

## ELECTRIC CHAIR FOR GERMS

New Method of Sterilization Proclaimed by a Scientist.

The bacilli will meet death by electrocution should a new method of sterilization recently proclaimed by Dr. Carl H. von Klein come into general practice, says a Chicago dispatch. Two wires charged with positive and negative currents and a metallic bowl, preferably copper, are the weapons of death with which Dr. von Klein slays the germs. With one of the wires applied to the outside of the vessel, the other resting in the fluid it contains, he asserts swift and sure death by electrocution is meted out to the unwelcome life therein.

"Sterilization by my new method," said Dr. von Klein, "not only kills all the ordinary germs and bacilli, but it likewise kills the fermentive germ and itself becomes a most wonderful preservative."

"I tried it on a bowl of milk on a Thursday. The next Monday that milk was as sweet and pure as possible."

Having satisfied himself of the effects of electricity on milk and water, Dr. von Klein purposes trying it on fruits and vegetables. He also hopes to evolve a plan by which a copper mesh could be inserted in the chief water mains and then by means of his positive and negative electric currents sterilize every drop of water that passes through.

## The Thorn on the Rose.

In the old Bundesh of Zoroaster we are told that the rose grew fair and thornless until the entrance into the world of Ahirman, the evil one. According to this ancient narrative, the spirit of evil became universal, and not only man suffered thereby, but inferior animals as well as trees and plants.—Circle.

## FIERY CHARLES READE.

The Author-Manager's Way With Ellen Terry, the Actress.

Ellen Terry at the age of twenty resolved to leave the stage and went and stayed six years in the country. How she came back to it is told in "Ellen Terry," by Christopher St. John.

Charles Reade when hunting in Hertfordshire met her by chance in a country lane and told her in his rough yet kindly way that she was a fool to have left the stage.

"Why don't you go back?" "I don't want to."

"You will some day."

"Never!" Then, mindful of certain financial troubles threatening her rural peace, Ellen Terry added, "At least not until some one gives me \$200 a week."

"Done!" said Charles Reade. "I will." The part Miss Terry played for Reade was Philippa Chester in "The Wandering Heir." At the end of the run of this piece she did not leave his management, but went on tour in several of his plays. The tour was financially disastrous, but a suggestion from Ellen Terry that her parts did not carry her salary and that she had better leave, as any one could play these parts equally well, was received with the greatest indignation by the fiery author-manager.

"Madam, you are a rat! Don't imagine it is generous to desert the sinking ship," expressed his view of the situation.

An old lady who lived with Miss Terry at this time and was her inseparable companion remonstrated with Reade for his harsh language to her "Nelly." "I love her better than you do or any puling woman," Reade answered.—Manchester Guardian.

## VANISHING TROUSERS.

A Simple Trick Which May or May Not Be Humorous.

This is a simple trick, and every married woman can perform it, but it requires the assistance of a confederate with a big bag of shining tinware on his back.

First get a husband with an extra pair of slightly worn trousers in his wardrobe; then have the confederate, the man with the bag of tinware, come to the back door and knock gently. The wife must then peep out in a frightened way, and immediately the man with the tinware tells a tale that resembles an advertisement. The wife stops to think a few minutes. Suddenly she must rush to the wardrobe, but only after the man rattles the brilliant tinware to arouse her. The wife must walk back to the man again with the trousers. The man must take them and hand the wife a few tin pans. All the while the man with the tinware must smile happily. At last the transaction is completed, and, presto change! the husband's trousers have disappeared and in their place appears some tinware on the kitchen table. This trick is very novel and will amuse the husband greatly. The trick should not be performed while the husband is in bed unless he has an extra pair of trousers.—F. P. Pitzer in Judge.

## Another Nuisance.

It was the first time he was being married, and he was naturally a little nervous and upset, but he managed to say "Yes" all right and to keep time to Mendelssohn, sailing down the aisle, and to sign his name in the register without making more than a dozen blots.

He thought then that it was finished, but when they got to the church door they found it was raining.

"Confound it!" he cried, putting up his umbrella. "Another nuisance now!" And then, though he cannot guess why, the people around all laughed, and his mother-in-law bridled and his wife refused to speak.—London Answers.

## He Could Count.

A very little boy was in the room where a young lady was practicing on the piano. She was counting aloud, "One, two, three, four." The little fellow, quite surprised, after awhile went to her and said earnestly, "Ee next is five!"—Youth's Companion.

## Fish or Golf Story.

While driving to the fourth green on Newark golf course a local solicitor sent his ball into the river Devon and killed a two pound fish. Both ball and fish were found together, the latter bearing marks of its injury.—London Standard.

## DARLING MAN ASKS RETRACTION

Man who Accompanied Sheriff  
West in Annie Kinttop Case  
was not Operated Upon

## NO HAT PIN WAS FOUND IN HIM

Article was Taken with Credit  
from Long Prairie Leader  
Without Malice

On June 19th THE DISPATCH published an article clipped from the Long Prairie Leader, referring to the murder of a hat pin had been found by surgeons in the abdomen of a young man operated upon in a Little Falls hospital, and that the young man was the girl's lover and that he had accompanied the sheriff west in an effort to identify a couple of suspects. The article was published merely as a matter of news taken from a reputable exchange, and accepted as thousands of news items are necessarily taken in a newspaper office every year—without a particle of malice and without a personal knowledge of the case.

This paper has received a notice signed by Alfred Erickson, of Darling, setting forth that he is the man, and the only man, who accompanied the sheriff of Morrison county west to identify the suspects in that case and that he has never been operated upon at Little Falls or elsewhere, for appendicitis or any other trouble, and that so far as the story refers to him or to the "young man who accompanied the sheriff west to identify a couple of suspects," it is false and libelous when it stated that he had been operated upon and the broken end of a woman's hat pin found in his abdomen.

THE DISPATCH gladly sets Mr. Erickson right before the public in the matter. As stated above, the item was published on the supposition that the Leader was correct in its statements, and as it was not, THE DISPATCH was in error and Mr. Erickson has been unwittingly placed in a bad light which THE DISPATCH greatly regrets, and cheerfully retracts the statements made in said article.

## BRAINERDITES TOOK PURSES

Several Brainerdites Gathered in  
Good Money at Staples the  
Fourth and Fifth

Several of the gentlemen who went to Staples to celebrate the Fourth and Fifth brought back substantial purses as a result. In the athletic contests the Fourth Tom Templeton took first prizes in the standing broad jump, the running jump and the twenty yard dash. Baldy Murphy corralled the second prizes in the second and third named of the above events.

In the shoot the fifth the Brainerd men fared almost as well. Guptill, of Aitkin, took first prize while Geo. Trent took in the second and J. R. Smith and Artie White divided the third money.

Among those who attended the shoot from here were also H. W. Linnemann and J. C. Herbst.

## ALMOST A TRAGEDY

Four Lives Came Near Being Sacrificed to the Waters at Midland the Fourth of July

Midland came near being the scene of a tragedy the morning of the Fourth. A big gasoline launch from Cove was plying the lake and in trying to land passengers at Midland during the storm the morning of the Fourth a boat containing four persons was capsized and they came near drowning but were saved after strenuous efforts by those who witnessed it from ashore.

## MUSIC AND DRAMA

### "Dockstader's Minstrels"

Lew Dockstader and his minstrels were not greeted by as large a house as they deserved last night. The fact that it was the day after the Fourth probably contributed to the light house. The parade in the afternoon foreshadowed a good show, one characterized more by high grade performances than by gaudy uniforms and equipments. The orchestral work of the evening was fine and the vocalists much more enjoyable than ordinary minstrelsy. Lew Dockstader and Neil O'Brien were the headliners. Dockstader was at his best but his part on the program was limited. O'Brien did several stunts that called for hearty encores and made almost as much of a hit as Dockstader. The troupe left this morning for Duluth.

## THREE MORE BLOCKS TO DO

Work Will Probably be Completed Some Time During  
the Month of August

The work of paving Sixth street is progressing, the fourth block being nearly completed. The grading is partially completed on the next block and the curbing is in place for that block. The steam roller is being used on the last two layers of stone and is packing it down in good shape. The horse roller has been used so far on the unpaved street and the first layer of stone. There are now three blocks yet to pave and at the rate that work has already been done it will be some time in August when the work is completed.

## SATISFACTORILY ADJUSTED

Practically all the Losses From the  
Sleeper Block Fire Have Been  
Satisfactorily Settled

While none of the gentlemen interested care to give out figures for publication until the money is received, it is stated that all the losses by the recent Sleeper block fire have been satisfactorily adjusted. John Carlson was pleasantly surprised on getting his safe open to find that he had \$18,500 insurance instead of about \$15,000 as he thought he had. Mr. Drosky also had \$9,350 instead of \$8,000 as he first reported. The losses in adjoining buildings from water, etc., have all, it is reported been satisfactorily adjusted.

### Death of Harry Withrow

News has been received in this city of the death of Harry C. Withrow which occurred at Helena, Montana, some days ago. The deceased was formerly a resident of Brainerd but removed to Duluth some years ago, in which city he was highly esteemed. For some years he has held the position of humane officer and was considered authority on matters pertaining to the profession with which he had identified himself. The remains were brought to Duluth for burial, the services being under the auspices of the Knights Templar. Mr. Withrow was a brother of Mrs. D. S. Forgy, formerly of this city. The Duluth Tribune says:

Seldom in the history of this city has the death of one of its citizens been as keenly felt as at the sad ending of Mr. Withrow's life. He was loved by those who were the closest to him, and esteemed and honored by all who knew him, and friends and acquaintances united in paying him their last tribute.

## CAUSES LITTLE COMMOTION

Japs Not Excited Over Dispatch of Battleships to the Pacific.

Tokio, July 6.—A report from New York that President Roosevelt had officially confirmed the dispatch of sixteen battleships to the Pacific produced but little commotion here. Some are inclined to read between the lines either a sinister motive on the part of a certain section of Americans affected with anti-Japanese mania or the machination of a tool of a third power who is trying to benefit from the quarrels of others.

### Where They Were Not Bad.

A visitor who was going through the penitentiary one day turned to the warden and said:

"I suppose you have a good many bad people here?"

"Bad! Bad people here!" ejaculated the gray haired warden, with an air of comic surprise. "What put that into your head? There are no bad people here. Why, if they wanted to be bad, we wouldn't let 'em."

The warden smiled grimly, and the visitor awakened to the fact that the "pen" was not the place where people could afford to be bad, even if they wished.—Brooklyn Eagle.

Y. M. C. A. 2d	2	0	2	.000
Pres.	2	0	2	.000

The game between the People's and First Association teams last night was of only four innings, the gathering darkness causing the game to be stopped by agreement. The balloon ascension took place one inning sooner than scheduled. Heretofore it has been in the fourth inning that one of the teams has gone up in the air. It was the first half of the third that that feat was performed last night. Aside from that inning the game was a good one the People's team scoring six of their eight runs in that inning. The Y. M. C. A. team won the toss up and took their outs. T. Swanson was first man up to bat for the People's and safely negotiated the sack while Doepke and Seder got out next and Davidson and Lund got first, scoring Swanson. Then Falkenrick got out and the inning was over. For the Ys C. Rice succeeded in getting across the plate, Hoorn, Barron and B. Rice getting out, while Northrup, Lundquist and Olson died on bases.

In the second inning neither side scored. In the third the People's held a bat-fest and scored six runs before the side was retired, while their opponents were only able to add two to their score in that inning.

In the fourth and last inning the People's were able to add one more score to their string, while the Ys only added three to their nest of goose eggs. The Ys played with a largely improvised team, there being but four of their regular players present and their pitcher being absent. Gus Small officiated in the box, and though he does not claim to be a pitcher, did very well. Davidson, for the People's pitched an erratic game. He struck out a number of men, but was wild giving several men bases on balls, in one instance when all the bases were full, thus forcing in a run.

The following was the lineup:

	Y. M. C. A. 1st
People's	C. Rice
T. Swanson	Small
Davidson	Northrup
Doepke	Hoorn
O. Swanson	Olson
Lund	Lundquist
Falkenrick	Paine
Crust	Barron
Lind	B. Rice

## ABYSES OF OCEAN.

Extent of the Deep Waters and Their Tremendous Pressure.

More than half the surface of the globe is hidden under water two miles deep. Seven million square miles lie at a depth of 18,000 feet or more. Many places have been found five miles and more in depth. The greatest depth yet sounded is 31,200 feet, near the island of Guam.

If Mount Everest, the world's highest mountain, were plucked from its seat and dropped into this spot the waves would still roll 2,000 feet above its crest.

Into this terrific abyss the waters press down with a force more than 10,000 pounds to the square inch. The stanchest ship ever built would be crumpled under this awful pressure like an eggshell under a steam roller.

A pine beam fifteen feet long which held open the mouth of a trawl used in making a cast at a depth of more than 18,000 feet was crushed flat as if it had been passed between rollers.

The body of the man who should attempt to venture to such depths would be compressed until the flesh was forced into the interstices of the bone and his trunk was no larger than a rolling pin. Still the body would reach the bottom, for anything that will sink in a tub of water will sink to the uttermost depths of the ocean.—Exchange.

## SECRETS OF SAVAGES.

Some Things That Baffle the Ingenuity of Civilized Man.

The head was no bigger than an orange, the black, bearded head, perfectly preserved, of a man of forty or so.

"The Dyaks alone," said the ethnologist, "have the secret of taking an adult human head and reducing it, like this, to less than half its size. Their houses are ornamented profusely with these reduced heads of enemies slain in battle. No one knows how the reduction is accomplished. It is a marvelous secret that the Dyaks refuse to give up.

"Savages, degraded as they are beside us, possess a number of marvelous and unfathomable secrets. One is the making of fire by the rubbing of dry twigs. Only a savage can do that.

"Another is the construction of fishskin suits. The natives of the Siberian coast make suits of fishskin that are softer, finer and far more waterproof than any fabric known to us. What could be so waterproof as fishskin?

"A third is the secret of arrested life. There are aborigines in India who can die temporarily, can be buried a week or more and on being dug up come to life again.

"The best blankets, the best baskets, the best canoes and the best dyes are all made by savages."—New Orleans Times-Democrat.

## A QUAKER ROMANCE.

The Wooing of Katherine Hollingsworth by George Robinson.

Valentine Hollingsworth accompanied William Penn in the good ship Welcome and settled in Delaware upon the banks of the Brandywine. Katherine, his daughter, "a delectable Quaker maiden," the pride of the little settlement, was wooed and won by big George Robinson. But George was of the Church of England, and Katherine "must be married in meeting."

"George," writes the author of "Heir-loom in Miniature," "was willing to join the society, be a Friend and be married in meeting or anywhere else that Katherine said. Accordingly he and Katherine made their first declaration fifth day, first month, 1683."

The elders, however, had "scruples," seeing that George's conversion was very sudden, and they asked him this searching question:

"Friend Robinson, dost thou join the Society of Friends from conviction or for the love of Katherine Hollingsworth?"

George hesitated. He prized the truth and he did wish to marry Katherine. So he answered:

"I wish to join the society for the love of Katherine Hollingsworth."

The Friends counseled "delay and that Friend Robinson should be persuasively and instructively dealt with." Shrewd men as they were, they allowed Katherine to deal with him, and within a year George joined the society as a true convert.

An old manuscript reads, "He and Katherine were permitted to begin a long and happy married life together, being for many years an example of piety and goodness to those around them and retaining their love of truth and loyalty to the society to the last."

## HE HIRED WEBSTER.

A Sharp Nantucket Man's Bargain With the Great Lawyer.

Of course Webster was in demand by those who could afford to pay for his services. A sharp Nantucket man is said to have got the better of the great defender of the constitution in an amusing way, however. He had a small case which was to be tried at Nantucket one week in June, and he posted to Webster's office in great haste. It was a contest with a neighbor over a matter of considerable local interest, and his pride as a litigator was at stake. He told Webster the particulars and asked what he would charge to conduct the case.

"Why," said Webster, "you can't afford to hire me. I should have to stay down there the whole week, and my fee would be more than the whole case is worth. I couldn't go down there for less than \$1,000. I could try every case on the docket as well as one, and it wouldn't cost any more, for one case would take my time for the entire week anyway."

"All right, Mr. Webster," quickly responded the Nantucketer. "Here's your \$1,000. You come down, and I'll fix it so you can try every case."

Webster was so amused over this proposition that he kept his word. He spent the entire week in Nantucket and appeared on one side or the other in every case that came up for hearing. The shrewd Nantucketer hired Daniel out to all his friends who were in litigation and received in return about \$1,500, so that he got Webster's services for nothing and made a good profit to boot.

## BAD STORM IN WISCONSIN

Damages Property and Injures Several Persons.

St. Paul, July 6.—Wind, hail, rain and lightning Friday night made a second onslaught on some sections of Wisconsin, doing thousands of dollars' damage both to buildings and crops and injuring several people, but it is believed that nobody was killed.

Six cities and towns were the scenes of the storms' greatest activity and the country districts in the vicinity of these places also shared the fury of the elements.

Grain and timber alike went down before the wind and hail and windows in the houses in all places where the storms broke were shattered. Lightning struck a number of houses, principally in Grand Rapids, but though several persons were knocked senseless none was seriously hurt and there were no fatalities.

Telephone and telegraph wires suffered and in some sections communication was cut off for hours. The rivers were swollen several feet and logs which were ready for transportation or which were being taken down stream in rafts were scattered for miles. Several washouts on railroads blocked traffic for the time being.

At Grand Rapids a tent which was crowded with people attending a Good Templars' Chautauqua meeting was blown down and a panic ensued in which people were trampled and bruised, though none was seriously hurt. A similar gathering at New Auburn was almost thrown into a panic when the storm struck the canvas, but the guy ropes had been taken about trees and these held firm, while the men in the audience seized the canvas flaps and kept the wind from getting a full sweep under the body of the tent.

The only fatalities reported in any way connected with the storms were at Marinette, where two men and a woman went out in a launch on the bay during the afternoon. When the storm swept the bay later in the day they had not returned, and as nothing has been seen of them since it is feared that all three were drowned.

## RUNYAN IS ARRESTED

Defaulting Teller of a Trust Company Captured.

## SOME MONEY IS RECOVERED

Over Fifty-four Thousand Dollars of Stolen Money Located, But a Large Amount Was Lost by the Embezzler in Speculation.

New York, July 6.—Chester B. Runyan, the defaulting teller of the Windsor Trust company, was arrested in this city and \$54,410 of the money stolen from the bank was recovered.

Runyan was found in the apartment of Mrs. Laura M. Carter of 619 West One Hundred and Forty-fourth street, where he had been since he walked out of the bank on Saturday with all the money in the teller's vault packed in his suit case.

Mrs. Carter reported at the One Hundred and Twenty-fifth street police station that Runyan was in her flat. Five detectives at once accompanied Mrs. Carter to the house. She furnished them with a key to the apartment and two of the detectives entered the room while the others remained outside.

As the detectives entered Runyan was standing in front of a chiffonier. He turned suddenly on the officers, with a revolver in his hand. The detectives rushed at him, telling him to throw up his hands. He thereupon dropped the revolver and calmly submitted to being handcuffed, saying "the jig is up."

When asked where the money was he said that part of it was in the suit case and the rest was in a drawer of the chiffonier.

When the detectives had finished ransacking the flat Runyan was taken to the police station. Mrs. Carter and her negro maid, Mary Duncan, were also placed under arrest.

At the station Runyan admitted his identity.

When questioned about the whereabouts of the balance of the money missing from the bank—the sum lost was said to be more than \$95,000—he stated that he had been speculating and had lost heavily and intimated that Mrs. Carter might know something about any money that was missing. Mrs. Carter indignantly denied that she had any of the money and angrily told Runyan that she had betrayed him to the police because he had lied to her and had not given her money as he had promised.

## Gave Money to the Woman.

Runyan stated that he had given Mrs. Carter \$15,000, but this she denied. He said he gave her \$5,000 on Monday and \$10,000 Friday morning. Mrs. Carter said that he gave her \$5,000 on Monday but that she withdrew it from the bank Friday morning and returned it to him.

It also developed that Runyan gave Mrs. Carter a heavy gold bracelet and a diamond ring on Saturday evening. These were valued at \$1,000. The bracelet was on Mrs. Carter's wrist at the time of Runyan's arrest and is now in possession of the police.

Mrs. Carter was closely questioned by the police as to her acquaintance with Runyan. She said that she first met him on the street and had met him several times after that. Finally she said he agreed to furnish a flat for her and give her money. The flat was secured and she moved in two weeks ago. After that she said she saw little of Runyan until last Saturday and he had given her little money.

Asked about the motive for the robbery, Runyan said:

"I needed the money. It was there and I took it. Some of it I lost in Wall street and some of it I gave to this woman." Runyan intimated that at one time he was prompted to return the money and give himself up.

He insisted that he had turned over all the money he had left to the police and when it was pointed out to him that there was a large amount still missing, he smiled and said:

"Oh, I've been speculating, you know. All the world knows that now."

"There was \$64,500, so far as I can remember, but then you know that a week is a long time and I may be wrong. I'll have to think it over."

## TROLLEY CARS COLLIDE.

One Man Killed and Several Other Persons Injured.

Tonawanda, N. Y., July 6.—Two of the big trolley cars of the International Railway company, Lockport line, met head-on in North Tonawanda.

Motorman Daniel Hallinan was crushed and died soon after.

Motorman Butler and Conductors McClosky and Murphy were severely injured. McClosky will die.

Of the thirty passengers on the two cars only a few escaped without injury of some kind.

## Bombs for Police Officials.

St. Petersburg, July 6.—The little town of Kiliar in the Terek territory, Circassia, was the scene of a bomb-throwing Friday. Several bombs were hurled at two high local police officials. One of the men was killed. The assailants got away.

## FAVORABLE WEATHER.

Aids Crop Development and Expands Retail Trade.

New York, July 6.—Bradstreet's review of trade says continued favorable weather conditions have made for further crop development, expansion in retail trade in light summer goods and notable stimulation of hitherto lagging reorder business. One of the most favorable developments of the week has been the improvement noted in collections at many markets, a sure sign that retail stocks are moving though the number of cities reporting reduction sales or slow trade is sufficiently large to show that trade in summer wear has not in all cases been satisfactory. The usual measures of business, such as clearings and failures, point to irregular conditions. Desire to await a clearer view of crop out-turn limits future commitments, but the situation in cottons is very strong on uncertain crop outlook and a heavily sold ahead condition at the mills. The future outlook as to prices of goods is now having the attention of manufacturers and wholesalers. Holiday quiet rules in the shoe trade, but recent warm weather has helped retailers and jobbers and the outlook for the coming half year is hopeful.

## SAVES PASSENGER TRAIN.

Minister Removes Obstruction From Railroad Track.

Oconto, Wis., July 6.—The Rev. J. T. Fish, pastor of the Methodist church here, saved a passenger train from destruction. He was driving along the road near the city when in crossing the Northwestern tracks he noticed that a cattle guard and fence had been ripped up and lay across the track in such a manner that a train could be wrecked.

While he was looking the train from the north hove into sight around the curve and the pastor leaped from his rig and removed the obstruction in time to save the train.

The cattle guard and fence were supposed to have been pulled from their fastenings by something dragging from a freight train.

## May Sutton Again Champion.

London, July 6.—In the all England tennis championship, ladies' singles, at Wimbledon May Sutton of California defeated Mrs. Chambers in the championship round. Miss Sutton thus won back the title of British champion of which she was deprived last year by Mrs. Chambers, then Miss Douglass.

## TELEGRAPHIC BREVITIES.

Secretary of War Taft has gone to Murray Bay, Can., to join his family.

Roland Faulkner has resigned the commissioner'ship of education for Porto Rico and sailed for New York.

## British Minister Injured.

Christiania, July 6.—The British minister, Sir Arthur James Herbert, was injured in a carriage accident at Fjeldsfeld, between here and Bergen. The minister was traveling overland from Bergen to the capital in company with his wife, who was a Miss Helen L. Gammel of Providence, R. I. The carriage was overturned on a steep embankment. The minister sustained broken ribs and internal injuries. His wife was not hurt.

## Heavy Loss From Fire.

Montgomery, Ala., July 6.—Fire destroyed a part of the freight depot of the Western Alabama and Atlanta and West Point railway here. Forty-two cars of first-class freight were burned and fifteen loaded cars on side tracks were badly damaged. Many records, books and receipts were lost. Loss, \$100,000.

## The Hygiene of Underwear.

The average person wearing two sets of underclothing a week says the change in the middle of the week, but it would be far better if the two sets were kept going the entire week on alternate days. With the biweekly change, the clothes worn during the day are aired only for seven or eight hours in the twenty-four and never have the purifying process of a sunning. With two sets going on alternate days, one set can be aired two nights and one day, and, if possible, should be hung up where they can receive the direct rays of the sun for some hours. They should not be kept in a dark closet.

## A Wonderful Cataract.

The falls of Iguazu, situated near where Argentina, Paraguay and Brazil meet, form one of the most wonderful cataracts in the world, being greater in extent and more varied in character than the better known falls of Niagara. The first plunge of the Iguazu falls is 210 feet, followed by two others of 100 feet each, while between the two series of falls there are cataracts and rapids covering a vast expanse and surrounding picturesque islands.
